Mint of the United States

Jan'y 28th 1794.

Whereas the business of the Mint is greatly impeded & its expenses unnecessarily increased by the frequent absence of the Workmen without leave, and often on pretence of sickness. It is ordered therefore to prevent these abuses in future, the Directors Desire that every Workman, who shall be absent from ~~his~~ his work without leave, may be charged with the time he is so absent and the amount deducted out of his pay, let his excuse be what it may. — And that this order may not prove injurious to the industrious & attentive workman, who may be necessarily detained by sickness, the Directors will add One Dollar p month to each mans Wages in future. —

Directors also orders that whenever it can be done with propriety, each man may have his daily Work specifically assigned to him, which, when completed, he may be discharged for the day, or if necessary to detain him, he shall be paid for it over & above his daily pay. — but when he falls short, that it be made good the next day or deducted from his Wages. —

(signed) Elias Boudinot Director

Mr. Shreve will copy this in a plain hand & stick it up in two places in the Mint, leaving this copy in the Directors Office. —

Ministry of the United States

Treasurer, June 10th 1797

I herewith transmit you for attestation, my
accounts of the ordinary receipts & expenditures of the Mint for
the quarter ending Dec 31 1796, also a copy of a letter from
Thomas Crockery of London, who states that the balance due
from him is only \$1.16.25 & refers to his accounts rendered
to the Secretary of State.

You will observe I have debited Samuel
Payard of London, & credited the United States under the head
of "Capt & Co's on exchange" with the sum of 322 ¹/₂ dollars,
being the difference between the cost of \$1280 W. purchased on
the 7th March last at 160, each & remittance, & the value of said
sum at Par. It appeared necessary in order to prevent possible
objections in the accounts of the Mint, to have a uniform standard, as
being the difference in dollars. Notwithstanding the Par of Gold is gene-
rally allowed by mouth, I thought it best to adopt it, & if approved of
by you the difference in future between the cost & value of Bullion
shall be carried to ~~charge~~ the back paid.

On the 28th ult. a warrant was issued by the Secretary of
the Treasury in my favor for \$2020 To do is to be on account of
the expenditures of the Mint. This sum was the amount of the
Expenses & Passage in all sorts of Bullion, & was requested by the Director
to enable the Mint to pay off a deposit of Silver Bullion, and

being applied for that purpose, it must have been brought into the

Bank account.

I shall now reply to the remarks on my Bulletin account sent you some time since for settlement. In reply to the letter of the Director accompanying this as a copy of the first. The entry of such an explanation is required does not affect the general amount of the deposit with the Bank of the United States. It was designed to register the respective balances of Gold & Silver Coins which would have appeared, provided every deposit of Silver had been paid with Silver Coins & Gold with Gold Coins, but in some instances this was not the case, besides that it was impossible to complete the payment of a Gold deposit without some Silver & Copper Coins. For this reason I was obliged to make a just distinction between the balances of Gold & Silver Coins a separate account for each was opened on 8 Jan 1796 with the Bank of the U.S. The propriety of the entry will I believe be satisfactorily amplified by the following statement.

Amount of Gold Coins received from the Bank of the U.S. on 8 Jan 96	76,585.
Same paid for Gold deposits	76,515. 31
Balance of Gold Coins on hand on 8 Jan 96	69. 69

Sir

Upon a close examination into the accounts of Bullion deposited by me at the mint for barage prior to your taking charge of that Institution, I find that I have been a considerable sufferer from a Deviation made from the Law of the United States, with respect to the Alloy, & now enclose to you an abstract or statement of same.

My deposits, including those made by the United States Bank for me, amounted to 193,303.8 of fine silver, to which add $\frac{1}{9}$ Alloy $\frac{21,478.3}{214,781.11}$ agreeable to the Practice of the Mint, but contrary to Law. I was only allowed therefore $214,781.11$ of Standard Silver, but by the Law & at the rate of 1485 parts fine to 179 alloy, I should have had 216,609.17 of Standard Silver, which exceeds what I was allowed by

by 1822. $\frac{6}{20}$. equal in Value to D.^s 2102 $\frac{60}{100}$
This amount I call upon you for as Director
of that Institution & remain with respect

The Collector of the Port, respectfull
compliments to the Director of the Mint
Informs him the Copper exempt from
Duty by Law is of a different description
from the consignment to him, as set
forth in the Inv^o - - and if exempt from
Duty there is still a necessity for
its being duly entered agreeably to Law.
The giving bond is only conditional that
if duties are to be paid it will follow
of course - otherwise not, but
I had the opinion of the Secretary
in respect to other publick property
that an Entry & was right, thought
to be made - because in the Manifest
it appears not as publick property,
the necessity of the measure a reflection
must appear on many accounts
to you as proper - and as no costs
follow. I cannot see any impropriety.
It is not the wish or intention of the
Custom House to retard or injure
the Publick business.

Sir

The Secretary of the Treasury having directed me to prepare as soon as possible the Estimates for the ensuing year for the purpose of laying the same before the Legislature upon their meeting in November next. I am to request that an Estimate of all the Expenses of your Office for the Year 1798 may be prepared and transmitted to the Treasury as early as convenient

I am with the greatest Respect

Sir your most obed^t & most
humble Servant

Joseph A. B. (R)

Elias Boudinot Esq^r

Director of the Mint

Sir,

Progs Ferry 4th of Decr 1897.

I have been applied to by a Gentleman of Baltimore
whom I wish to gratify, to know what "a Green when
'coined will be worth all expenses & losses deducted."

Having no other way of answering his Inquiry, will
you permit me to select a few lines on this point from myself
the Gentleman who has applied to me can assure you is
a very discerning Character with much respect.

I am Sir,

Yours most obedient,

Most humble servt.

Wm H. Norry,

Elias Bondine & Co,

Director of the Mint

Treasury Department
November 29th 1797

Sir,

I have received a Certificate of your
affirmation before Judge Peters, diligently and
faithfully to execute the Office of Treasurer of
the Mint; — with a bond dated November 28th 1797,
signed by yourself as principal and by Samuel
Boats Merchant of Philadelphia and Richard
Hockton Esquire Counsellor at Law of New Jersey
as Sureties, for the sum of Ten thousand dollars
with condition that you will diligently and
faithfully execute the duties of the Office afore-
said. —

The bond has been approved by me
and with the Certificate of Affirmation trans-
mitted to the Office of the Comptroller of the
Treasury. —

The Duty of the Treasurer of the Mint.

November 27, 1797.

He is to receive all Bullion of the precious metals and
Copper, with the coin struck in the Mint & all monies advanced
by Government on the Director's application, and issue the
same on the warrants of the Director and be accountable

for the same.
He must attend every day (unless excused by the Director)
between the hours of Ten & Twelve o'clock of the morning
to receive deposits, issue Bullion & pay the current accounts
as occasion may require.

A Clerk is appointed by the Director, whose duty
it is to keep all the Accounts of the Mint, & who also acts
under the Treasurer in receiving & weighing the Bullion,
Coin &c.

The Treasurer being accountable for all receipts &
issues of every kind, his own Interest, as well as the
well ordering of the Department, will lead him to attend
to the daily entries of every thing relative to the business
of the Mint, agreeable to the rules establish'd for keeping
the accounts, and will make it an indispensable duty
to settle his accounts & balance them every quarter, that is,
on the last Days of March, June, September & December.

The Treasurer will be made more fully acquainted
with ~~his~~ ^{his} Duty & the duty of the several Officers
and the general arrangement of the business of the Mint by
the system of rules delivered him herewith.

As the greatest harmony has hitherto prevailed among
the Officers of the Mint, ~~the~~ ^{the} ~~Director~~ ^{Director} ~~is~~ ^{is} ~~in~~ ⁱⁿ ~~the~~ ^{the} ~~best~~ ^{best} ~~of~~ ^{of} ~~the~~ ^{the} ~~service~~ ^{service}

in contemplating that the former harmony will not be in-
terrupted by the accession of the present Treasury to this number.
They cannot but lament the loss of the late excellent Treasury
by an untimely death who had endeared himself to them, by
the most friendly & exemplary conduct, whilst at the same
time they feel their loss so fully made up by the judicious
choice of the President and the Director takes the greatest
pleasure in contemplating that the former harmony will
not be interrupted by the accession of the present
Treasury to this number.

In answer to your request, I have enquired
into the value of brown, & to be coined into Dollars, and if they
average 18-19 gr. they will be returned in Dollars without
loss, unless from counterfeits being mixed with them, which
in long time is sometimes unavoidable. — Or it would
save trouble to take it as a certainty, a deduction of one
half cent of brown would indemnify for all forgery, provided
as they are all brown, & not mixed with half brown. —

The Director having taken into consideration the application
of the Chinese workmen, relative to ^{the} portion of wages they are
entitled to, during the time they ~~remained~~ ^{remained} from the time they
shut up, on account of the Yellow Fever, they having returned
to work one month since, according to the time laid out by the
Order of 25th August last, ~~He~~ and being willing to do the
workmen perfect justice, and at the same time not to put
the United States to any unreasonable expense. ~~He~~ ^{He} proposes
to direct, as what appears to him as just & ^{equitable} ~~right~~ that all
those workmen who have returned & worked one month
be allowed ^{of their original} half wages during the cessation of business.

The Director of the Mint in obedience to the order of the House of Representatives of the United States of yesterday, begs leave

To report the enclosed statements, N^o 1. 2 & 3
 & 4, being those required by order — The general,

It is ^{thought} prudent to take into the Mind, no more Business than may be acted upon in one Week or two, when it comes from any of the Banks of this City, from whence it can be had in a very short time when wanted - It is for this reason that other

Reports, which are ready to be made by the Bank
of the U. States, have not been lodged in the Mint.
but are waiting the ^{completion of the} necessary arrangements in Paris - The

expected deposits from different quarters located
in the City of New York
as far as the Director has been informed may
amount to above 30,000 dollars in ^{English} currency

have an expected to be red. into the Mint by limited deposits, as fast as the prior ones are paid off - when ~~Principals are in full collection~~ there is a suffi

enough quantity of Bullion to keep ~~the~~ ^{the} price ~~and~~
timely striking, this will be at the rate of ~~the~~
thirteen Dollars a Day. About eighteen
to twenty.

Thousand Dollars. Therefore the gold coinage remains in amount, in proportion to its additional value.

Mount of the United States, 19 Dec 1877

The Director of the Mount of the United States, respectfully
informs the honorable, the Judges of the Supreme Court of the State
of Pennsylvania, that ~~that~~ ^{that} the language of the Mount
Mr Joseph Richardson is ~~unimpaired~~ ^{unimpaired} as to power to attend the Court
during the present week, that ~~he~~ ^{he} is an Officer of the Mount without
whose constant daily attendance, the business of the Mount cannot be
conducted in - That at this time, there are very large quantities of
Bullion on hand, the value of which will not only be very expensive
to the United States, but exceedingly injurious to the balance of the
State who have deposited their Bullion for exchange, the Director has
therefore respectfully submitted to your Honors, the propriety of excusing
Mr Richardson ^{absolutely} of, compatible with the business of the Mount -

I have the honor to be with the most

Sir

The Director of the Mint has currently looked over
your Memorial, he observes on it that as to the last Item of the
21st Nov 1798, it was reported after his coming into Office by Messrs
he knows that was calculated after the legal Standard, as one of his
first Acts was to open an Oven in waiting for that purpose - As to the
other parts of the Memorial, which relate to Coincussions previous to
his appointment, he is not capable of judging of them, without going
thru the files of the Mint, which he has not leisure now to do -

I enclose the Report by Messrs by order of the Director -

I am Sir &c

J. Thompson

To Mr John Vaughan

Treasury Department

Comptroller's Office

March 26th 1798.

Sir,

Your account as Treasurer of the Mint, for the ordinary receipts and expenditures thereof, commencing on the 1 of September and ending on the 31st of December 1797, has been adjusted at the Treasury, & a balance of eleven thousand seven hundred and fifty two Dollars and eight cents stated to be due from you to the United States, for which you will be debited in a future settlement.

This balance is two thousand eight hundred and twenty Dollars and seventy one cents more than that stated in the account rendered and arises from Warrant No 6730 for that sum, advanced for the purpose of making good the loss accruing in coinage, being charged in the settlement of the late Treasurers account to the 31 of August 1797, which was not credited by him, making the balance due on that settlement amount to thirteen thousand four hundred and fifty one Dollars and nineteen cents instead of ten thousand six hundred and thirty Dollars and forty eight cents, with the former of which sums you were of course debited, altho' the latter only was credited in your account.

As you are thus in effect charged with the warrant in question, you will consequently be credited for the loss in coinage before mentioned, whenever a particular account

thereof shall be exhibited.

I transmit herewith two warrants N^o. 78-13, the first for one hundred and seven Dollars and seventy five cents in favor of William Winter and the latter for one hundred and fifteen Dollars and forty cents in favor of Amos Subers (accompanied by the accounts on which they are predicated) to which you will be pleased to obtain the signature of the Director of the Mint and afterwards return them to this office.

I am Sir

Very Respectfully

Your Obedt^t Servant

Sir,

Mint of the United States
Treasury April 1798

I have with pleasure given the two warrants
which were enclosed to me in your letter of the 28th ult. for
the purpose of having the Directors signature affixed to
them.

The sum of two thousand eight hundred &
twenty dollars & seventy one cents, which has been
charged at the Treasury, in the accounts relating to the
ordinary receipts & expenditures of the Mint, was the amount
of a deficiency & was paid, by delivery of Bullion, which had arisen
in the Chief Coiners Department, to the 29th Nov. 1796, & was
requested by the Director, & appropriated by Congress to
enable the Mint to pay off a deposit of Silver at that time
made, & was paid by the Mint, & was charged on the ordinary
accounts, & was paid by the Director on the
19th Nov. 1796, allowing the Chief Coiner for Wadage \$10.15.95.5-
one for the deficiency amounting to 974.75.5

(making in the whole \$2,020.71-)
will accompany the Bullion accounts for the last Quarter
which together with those for the ordinary receipts & expen-
ces of the Mint, shall be transmitted to the Auditors Office
as soon as they can be made out complete.

Comptroller's Office.
September 27 1798.

Your account as Treasurer of the Mint, for the ordinary receipts and expenditures thereof, commencing on the 1st of January and ending on the 30th of June 1798 has been adjusted at the Treasury, and a balance of eight thousand, one hundred dollars, and nineteen cents stated to be due from you to the United States, corresponding with that exhibited in the account rendered; for which you will be debited in a future settlement. —

I am, Sir,

September 27th 1798.

Sir,

In adjusting the accounts of the Treasurer of the Mint, which I have lately done, to the 30th June 1798, I perceive a new accumulation of wastage covered by your warrants in favor of the Chief Coiner, and Letter and Refiners. As I am not certain how far such allowances are susceptible of being reduced to fixed and uniform rules, I have concluded in the present instances to admit them; and request of you an explanation of the principles and limitations under which they are usually made at the Mint. You will also be pleased, at the same time to favor me with your construction of the 2^d Section of "An Act concerning the Mint" passed on the 27th of May 1796. By this section it appears questionable whether the expense of wastage, (in melting and refining at least) is not more properly a charge against the Deposits than against the United States.

I have the honor to be

Sir,

Very respectfully

Sir

Last Night yesterday on my return from Long Island

I was honored by your letter of the 27th ultimo, - in answer to which
it is only necessary to inform you that the allowance of wastage
was ~~made~~ made the duty of the Director of the Mint - When ~~in~~
~~entrusted~~ the administration of the Mint, ^{was entrusted to my care} I found, that the Act
of Bullion had never been settled, and of course no ~~provision~~
established ^{my design} for the allowance of wastage, and ~~that~~ therefore ~~it fell~~
upon me to form some established rule - I made every inquiry
in my Power of the Silver Smiths in the City, and then made actual
Experiments, without letting the Workmen know ~~what I was about~~
On the whole, I found 1 grain in an Ounce to each Office, I mean
(the Melted & blown Cowin) was the best rule to do justice to both
Parties, altho' the Officers grumbled at the small allowance, but
I found with proper care, they would be indemnified - This allow-
ance of ~~loss~~ ^{now} made on every Ounce of Standard Silver coined
by them, and as every piece passes thro' upwards of 20 hands before
it is finished, it ~~is a little~~ requires very great circumspection to
keep within the allowance - As to the Act of 27th May 1796
it is the practice under that Act, to charge the whole expense of melting
& refining all Bullion under Standard, to the Depositor, because the
Officers should receive all Bullion of the proper Standard, which is
practised in all the Mints of Europe, it being a distinct profession
to refine by separate Metals, not generally performed in the Mints -

of course the public have credit for all other 6 or 12 cents per
for all Bullion refused on the Mint according to its Barometer when
is paid by the Depositor —

On my way home I mean to call on you, and give
any other Information in my Power —

Sir

I called at your house a few Days ago
I was sorry to find that indigestion had prevented your
return to Town, your Servant however informs me, you
was considerably better. I hope you will soon recover
your usual state of good Health. During my absence
from the City on Dec of the Year, I recd several Letters
from my Son in Law Mr Colburn relative to the Copperplate
supplying you with Copper for the Sheet. & I have thought
it right as I am deprived of the pleasure of seeing you, to
let you know what he says by giving you an extract of some
of the Letters, least you may transmit your orders to some other
House.

" I have written you on the subject of the Copper Plate, with
" respect to their ~~cleaning~~ cleanliness, we sent them perfectly so
" on board the vessel, but suppose some of the blags water got to
" them, as to the price it is impossible for him to sell
" Copper of equal good quality cheaper than ourselves, as he
" purchases it, either of us or of Persons who like ourselves are the
" Smelters, our Company to show their desire to keep up the
" Connection, have expressed me to say, that altho the price
" of Copper is very considerably advanced, since we sent the last
" plan chitt, they are willing to agree for ~~the same~~ ~~the same~~
" notwithstanding the same price to be delivered within
" a short time as opportunities of our prices will permit

"there is no other way to account for W^B Lopper being
"cheaper but that either he has sent it of inferior quality,
"which perhaps might answer the purpose equally well
"or in order that he might do the business he has submitted
"to accept, it is not our custom to sell any but the best Lopper
"though without if required —

I have had several letters from Mr. Colman to the above
purport of, if agreeable to you to take your supplies
from the consignment that he is concerned with, it will give me
pleasure so I think you will be as well served as from
any other quarter —

Yours truly

Mr Clifford has shown me a letter from you relative to the Copper Plates he furnished by the Company, to the President of the U States — It would give me great Pleasure to continue our Connection & the Press could be supplied by the Company on equal Terms as others do while the public Interest requires my attention to — I recd. a Paper from Mr Boulton by the way of Liverpool about the same time, I recd one from you — His consisted of 88-⁹/₁₂-21 and cost £¹²/₁₂ less than yours of 83-⁹/₁₂-24 and were incomparably better Copper & better workmanship — He went immediately to the press without the least preparation; we were obliged to clean & rubrol & mill yours before they could be struck — The Difference lay in his being rolled hard thro' polished rollers, were all milled & cleaned in Ague forth — Yours were rolled soft & of course the surface was uneven & uneven, but after it was cleaned, so that before we could strike them, we had to pass them thro' rubrol & to mill them, which from their being soft, rather increased their convexity and at last they were scarcely payable — In order that you may judge of them better than by any written Description, I send you by this opportunity two of said Plates of each imputation — If you can on examination furnish me with another shipment that will answer our purpose, I should be glad to make the Engagement, as I am very desirous of the connection — It would suit me much better if Mr Clifford could be authorized to receive the amount of Cash for the amount ^{you} as then no Delay would take place & the money should be paid on sight, or even in Advance if necessary —

Sir,

Agreeably to your request, I have caused
the Books of the Mint to be carefully examined, ^{relative to the Expence & Receipts of Copper} and
now have the honor to enclose you the result. I would pre-
mise that before my coming to the Mint, the Accounts of the
weight of the Copper purchased was not in some Instances so
accurately kept, as I have since thought necessary. — On the
whole however you will find that the purchases of Copper are
tolerably equal. — The ^{small} Balance unaccounted for, having been
absorbed by the necessary wastage, the alloy taken ~~from~~
for the precise Metals, ever since the Institution of the Mint
being taken from the blipping, and several quantities used
for casting for the use of the Mint. — The profit on
the Coinage, since the present arrangement, by which the Expenses
are saved, appear to be very considerable & encourage us to
pursue continue it in future.

Chas. B. Smith Director

Sir,

Treasury Department,
Comptroller's Office,
March 14. 1799.

Having intimated in my letter to the Secretary of the Treasury which accompanied sundry statements exhibiting a view of the transactions of the Mint from its establishment to the year 1798, prepared under my direction, for the information of Congress, pursuant to the 7. section of an act passed the 2. of April 1792, entitled "an act establishing a Mint and regulating the Coins of the United States" that the manner of keeping and rendering the accounts of the Mint would be so modified, as to shew at proper periods the exact loss or gain upon the coinage of copper; I have to request that you will be pleased to cause the accounts relating to this object to be so modified accordingly.

Presuming that this may be readily done I am induced to suppose it unnecessary to point out, or state in detail, the particular mode in which it is to be effected, and shall therefore leave it with you to adopt that course which in your judgement shall afford this information in the most satisfactory manner. It will however be essential that the following items, with the weight and value of each, should be distinctly exhibited - that is to say,

1. Copper coins on hand at the beginning of the quarter ready to be delivered to the Treasurer of the United States.
2. Planchetts on hand at the beginning of the quarter, fit for striking.
3. Rough copper and clippings on hand at the beginning of the quarter.
4. Planchetts received during the quarter.

5. Copper, other than Planchetts, received during the quarter
6. Copper coins delivered to the Treasurer of the United States during the quarter. —
7. Rough copper and clippings used as alloy during the quarter.
8. ditto ditto used for machinery during the quarter.
9. ditto ditto sold during the quarter.
10. Copper coins on hand at the end of the quarter, ready to be delivered to the Treasurer of the United States.
11. Planchetts on hand at the end of the quarter fit for striking.
12. Rough copper and clippings on hand at the end of the quarter. —

Dear Sir

I have detained the enclosed many months under an
expectation of receiving the work on Pettigrew as to handwriting of size, but it is not
arrived, which I attribute to the vicinity of the River, at whose hands I collected them.
I shall persevere in my application, and if finally successful, communicate the result
with pleasure - I have three books in me, upon the subject treated of in the
M.S., I had the pleasure of laying before you when at Phila, and I have brought
them back with me, from Connecticut, with an expectation of exhibiting them to
the Committee, as well as yourself, in order to show how methodically my Study
has been arranged and conducted the subject, and to submit, for information
they may contain, to your inspection, but I am again restricted from parting
with the Books, out of my own hands, or permitting any extracts being made.
I have long ago been gratified, by hearing from my Friends in England, that
a supply of paper had been sent you, with an assurance that you should
receive it regularly in future, as also the full information you wished

respecting the above long one - You would also be at the same time informed, what is
the whole quantity of pepper sold in Great Britain, & the high proportion his
own Consumption, bears, to that whole, when the Consumption of Government is
subtracted; and I fear, the late measures of the same brother, will interfere with
his intentions, & your expectations, unless a modification is adopted, which I
dread any practicable, & common Doubt, but his ingenuity will suggest, and
his necessity, or his engagements, lead him to pursue - I expect to be home
in this part of the Country about 3 weeks longer, and if opportunity presents some
I should stop in Bristol, and find an opportunity of paying my personal respects
to you, I shall do it with pleasure, but it is probable, that by the time I reach
the City, all my business will either have left it, or be upon the point of doing
it: therefore I mean to be the same, & merely to drive by the side of it, so I would
now say, that if upon any future occasion, any attention at my hands, can
contribute to your personal satisfaction, or in any degree promote the

Public service, by affording me the opportunity, you will suppose, you
may a real gratification to

for your friend Mr. Bolton's silence, as tho' I wrote many
letters & sent repeated orders for Planchette, I could not hear

cusing his neglect from a variety of causes — and soon af-

communicated his mode of rendering Dies, and has discovered
every disposition to do as in our Business —

He mentions that he is about proposing some plans

My dear Sir,

I do not know whether I shall have pleased you
in the Execution of the Trust which you have committed
to me. This Day I called upon all those, whose Bills
are unquestionable; but from none could I get any at
30 Days. Some refused to draw, others wanted to buy, and
others asked par, whether at 60 or 90 Days sight. Smith &
Buchanan having last Week rec^d. a large Sum of Money
from Jamaica, refuse to draw. Thus circumstanced, I
acquiesced to the Proposal of David Stewart & Sons, to draw
at 90 Days at 61 $\frac{1}{2}$ Cent Exchange: Their Bill is one of
the first Reputation with us, and I hope, that the Savings
in the Exchange will amply compensate for the
additional thirty Days —

Dear Sir

By yesterday's Mail I wrote you a few lines, and sent you the first two of a Bill for £1251.11 Sterling, at 90 Days sight, drawn by David Stewart & Sons, one of the most solid & respectable Houses in Baltimore, & purchased at 61 $\frac{1}{2}$ Cent. Lest the Letter should have failed, I here repeat to you, that all my Efforts to obtain Bills were fruitless, except an Application to the above House, & that of Gabriel Wood & Co. of the latter of which refused to draw either at 60 or 90 Days, & the former did not think himself authorized to draw at 60. I could have gotten at this sight from Lloyd, Buchanan, Courtenay & Co. at 62 $\frac{1}{2}$ Cent. Exchange; but theirs is a young House, and drew in the present Year very largely below the market price. All things considered, I therefore thought it best to buy from D. S. & Sons, hoping that the 1 $\frac{1}{2}$ Cent would be a sufficient Interest for 30 Days. Indeed for some time, our Shavers in Baltimore have been obliged to content themselves with this premium.

The Director of the Mint informs the Treasurer of the United States that there is coined in the Mint a number of cents to the amount of 2070 — Dollars, which the Director is ordered by Law to ~~pay~~ ^{pay} (as they shall be coined) into the Treasury of the United States. ~~He~~ The Director therefore is ready to

pay them accordingly, & says that the Treasurer will receive them as he has not room to keep them in coffers.

To the Treasurer of the United States —

The Officers of the different department will take measures to secure all the Machines & other works & property in every part of the Mint, so that they may not be injured or examined by any person whatever except the Officers of the department during the absence without leave from the Mint. The Chief Coiner will take special care that all the papers are taken to pieces & secured the printed parts to be removed as ~~soon as possible~~ hereafter mentioned from the Mint.

6. The Assistant to the Chief Coiner will specially attend to the actual & total destruction of all the spoiled dies so that no ~~spoiled dies~~ use may be made of them in coming in case they should get into improper hands not even as patterns.

7. The Director will attend to the putting up all the dies with the Assistant to the Chief Coiner in such manner that they may receive no injury and have them carefully locked up in a box & taken to the Bank of the U. States - he must take a correct list of them with their denominations & characters and send a copy to the Director - together with a list of all the papers by sent to the Bank.

10. All the reserved pieces & any other special property in small & compact may be locked up in a chest with the dies to be sent to the Bank together with the books of Accounts & other papers belonging to the Mint.

11. The Director having been officially informed by the
Treasurer of the Mint that a malignant fever is in the
city, and spreads in all parts of the Town with a rapid-
ity not known in former Years - that the Officers of the
Mint are alarmed, and in consequence of this, the Director
has thought it absolutely necessary that every thing should be
made in order to prevent unnecessary Confusion
in case a sudden closing of the business of the Mint
should become necessary.

The following Directions are therefore to be
strictly attended to by the different Officers
of the Mint, to whose department each may belong
1. All the Accounts of Bullion & Expenses must be
immediately brought up & closed.
2. In fact, so that the Balance due by
or to the Mint may be clearly ascertained.
3. The Workmen will all be paid up to that day.
4. If any of the Officers should want any advance
on Account of their salaries, it may be made pro-
vided it does not exceed the portion of the Balance
due to them. Partial receipts may be taken by the
Treas. on acct.

5. All the Gold & Silver Bullion already issued by the
Treasurer must be counted up as near as may be &
every deposit paid off before the closing of the Mint.
6. The Treas. will take care that all the Gold & Silver
Bullion in the Mint, be secured in such manner as
he may think best so that there may be no danger
of loss from leaving the Mint shut up without a guard.
7. For the purpose the different Officers will make

The foregoing is ^{duplicate} of my last to you, with the
offerance of covering the 2 sets of machinery then mentioned —
Since which, as late as Friday last I was honored with your favor of 18th
Dec. last, which gave me great satisfaction, as I could not account
for your long silence. — I am much pleased with your acct. of the
improvements you are making in the art of casting & especially in pro-
cessing Counterfeiter meeting with success, as they are the vermin of
society. — If you should be of opinion that any thing you chose to com-
municate under the strongest obligation of secrecy, to be of public service
you may depend on my Integrity on this head. — I should esteem it a
very particular mark of your confidence & benevolence, if you would
give me any instructions relative to the principles of the machinery
used in casting. — For altho' we are on the small scale, yet to us
as a set of People it is a matter of great consequence, as our spe-

cialties are such that we use the common ~~Drop~~
Proper with levers that go by hand manual Labor excepting that
as to small coin objects, the press is fed by means of a Hopper
instead of being put under by hand. — We strike about half a
million of Dollars in Gold & Silver & run off as many Planchelets
of Copper as we can get. — It would have been very pleasing to
me to have had our coin struck by able artists, if policy & the

national prejudice permitted it - but this was found impracticable.
The greatest difficulty I have experienced is in the Dies - most
of this proceeds from want of good steel - If you could send me a
few of the best kind, it would greatly oblige me indeed - You find
19) generous communication relative to the hardening Dies, demand,
my most cordial thanks - We have practiced hitherto ~~repeatedly~~
the same principle, excepting the oil or tallow in the last part
of the bar - It which in my opinion, will be a great improvement.

I am much obliged by your resolution to ship on the Tons
of Blanchette, the Pills now sent will fully reimburse you, and
I will be careful to keep you in best ~~supplies~~, for all you
may send hereafter - I beg you will not let any opportunity
slip to keep us well supplied, as I have been some times wholly
idle as to the Courage of Copper; and as to the Brass, if we get
the Copper as cheap as other people, it is all we can expect -

~~We are not doing much to get to the bottom of the Copper~~
in this country, particularly at Savannah where in I had formerly
is nothing in the way but water - I hope when our North Western
Country is opened a little more, that we shall be able to supply your
market with ore, as there is an immense body of it on the up per
part of Lake Erie - I would be much obliged to you for a pound of
the Inferior of a Steam Engine, equal to 12 Horse continuously at work -
I should be glad to know what sort of fuel you find it best to use
and to have a sample of a few Doves of a good size -

Mind of 11th July 1801

The Officers of the Mint are directed to shut up the Mint
on the 11th July Inst! that the workmen may have an opportunity
of keeping that day

Thos Boardman Esq.

Treasury Department
December 21. 1881

Sir

I have delayed replying to your letter of the 19th inst. in expectation, that the Bank of the United States, by acknowledging to the Treasurer the receipt of the Cash, lately deposited with them, would have enabled me to give all warrant for the amount thereof in favor of the Treasurer of the Mint. As the Treasurer of the United States, has received no advice in regard to the transaction in question, and there is no other appropriation applicable to the purchase of Copper, I regret, that it is not in my power to comply with your request.

With respect to the sum of Dollars 100,000⁰⁰ arising from Copper sold to the late purveyor of supplies, I have to observe that it has not yet been carried to the credit of the Mint Establishment.

I am very respectfully,
Sir Your Obedt Servant.

Elias Boudinot Esq
Director of the Mint

- Albert Gallatin

Mind of the United States 22 April 1860

Sir

The great scarcity of Copper in Europe has greatly disappointed us in the striking of cents ^{there} during the past winter.

During which the price for copper coin has been totally idle.

Yesterday I rec'd a Letter from my Correspondent ^{who is long as usual that} with the agreement news that he had prepared between 20 & 30 Tons of Blankets to be sent out in the first spring Vessel, and urges me to make him an immediate remittance, as he pays Interest, & of course charges it, after 4 months credit. This makes it necessary for me to request your ~~same~~ Warrant for the monies necessary for this purpose. It is a very disadvantageous time to purchase Bills, as they are now to be had at 55 to 57 1/2, and the last cost me 72.

I am entitled by law to draw from the Treasury — 10000 being so much I have paid into the Treasury in Cents more than I have drawn out —

The late Mr Francis purchased of the Mint, clippings for the use of the frigates, and for which his Executors have given credit to the United States as follows:

1811 —
Doll. 148 1/2

The smallest sum that will answer, is

17990

This surplus must be loaned to the Mint till I can make so many Cents which will not be longer than 5 or 6 weeks —

2989

If a larger sum, say ⁸⁵⁰⁰ ~~10000~~ Dollars could be paid it would be a great saving to the Government, to make the whole remittance which will amount to 16000 Dollars, while Bills are so low, but I can do with the ¹⁰⁰⁰⁰ ~~17990~~ sum till the month of June, by which time I shall pay in Cents sufficient to discharge the whole —

I shall be much obliged, by your warrant as speedily
as possible, lest Exchange should rise

I have the honor to be with great

Respect

Sr

Min't of the United States
Treasurer's Office 30th
September 1801

Sir,

I duly received yours of the 17th instant, advising me that my accounts as Treasurer of the Mint for Gold & Silver Bullion deposited therein from the first of April to 30th June 1801, had been adjusted at the Treasury & a balance of 4,208 D^{rs} 25 L^s & ms remained to my debit in new account which is correct with my books.

You will herewith receive the warrant no 154 in favor of the Mint & Refinery for 2,780 $\frac{2}{100}$ which had not the Director's Signature, owing to his being out of town at that time.

John Stodd Esq^r
Comptroller of Treasury

Sir

I have obtained Judgment against David
Stewart for the amount of the Bill at Law
with 15 p^{cts} Damages and Interest on the
principal from the date of the protest.

Mr Stewart offers a dividend of one
fifth to his creditors. I suppose another
fifth will close the account. As I do
not think the preference of the United States
can be maintained. Although in the rendition
of the Judgment the point is saved for the
decision of the next circuit (court) perhaps
it would be as well to receive the dividends
as they are declared. If you so conclude
please to advise me & I will remit you
the amount as you shall direct.

I am with the best regards
your obedient servant.

Baltimore July

Sir,

Treasury Department,
Comptroller's Office,
August 17, 1801.

Your accounts as Treasurer of the Mint, for the ordinary receipts and expenditures thereof, commencing on the 1st of July 1800, and ending on the 31st of March 1801, have been adjusted at the Treasury, and a balance of twenty seven thousand, and sixteen Dollars and seventy nine Cents stated to be due from you to the United States, for which you will be debited in a future settlement.

This balance is twenty two thousand five hundred and eighty two Dollars and twenty Cents more than that exhibited in the accounts rendered and arises from the following causes

This sum being the amount of Warrant N^o 1810, which altho' dated on the 27th of April 1801, is never- theless brought to your debit in the present settlement } 17000.

This sum being the amount of D. Stewart and Son's bill of exchange charged to the United States, as having been protested, without producing either the bill or protest. } 552.20

4,434.59
22,552.20
27,015.79
Difference before stated Dollars—22,552.20

With respect to this bill you will permit me to observe that an account should have been opened against the Drawers and Endorsers of it, in the books of the Mint, and the requisite steps taken to secure payment; regarding the amount, in the mean time, as forming a part of the balance unaccounted for by the Treasurer.

This course, it is apprehended, is still the proper one and the Treasury will consequently expect to be fully satisfied that nothing can be recovered of the parties here

a

a credit for the purchase money can be admitted.

The deficiencies which have appeared on the examination of the accounts now adjusted, render it proper to call your attention to the latter paragraph of the Comptroller's letter of the 17th of April 1800 and again to request that the original bills and receipts for payment may be in every case furnished to the Treasury. It is also proper to state that a warrant in favor of D. Wolf in the account of incidental and contingent expenses for the quarter ending December 31. 1800, voucher N^o 16, is without the Director's signature. It is my duty, in consequence of the Comptroller's advice, to make this communication.

I am, Sir,

Very respectfully,

Your Obedt^t Servant,

David Rawn.

D. Rawn.

Benjamin Rush, Esquire.

The Comptroller of the Treasury }

Dept of the United States

Treasurer's Office Philad^a 22^d August 1801.

Sir,

Yours of the 17th instant came duly to hand, advising me of my account for the ordinary receipts & expenditures of the Office from the 1st of July 1800 to the 31st March 1801, having been adjusted at the Treasury and a balance of — 27,010^l. 79^s. carried to my debit in new account.

Balance as stated by me due the U.S. — 4,434^l. 59^s.

Warrant received 5 May for purchase of Copper — 17,000^l.

D. Stewart & Sons bill on England returned protested — 3,582^l. 20^s. 27,010^l. 79^s.

The warrant for 17,000 ^l you will find credited in my account of the expenditures for the quarter ending 30th June 1801. — The D^r of Stewart & Sons was by direction of the former Secretary of the Treasury sent to the Attorney General at Baltimore together with the protest for recovery (which is the reason, that it could not be sent to your Office) who has informed the Director that he has obtained judgement against them for the amount of the bill at par, with 15 per cent damages & interest on the principal from the date of the protest. He further advises that

M^r Stewart offers a dividend of one fifth to his creditors & suggests that another fifth will close the account, and as he does not think that the preference of the U.S. can be maintained (although in the constitution of the judgement it is saved for the decision of the next Circuit Court) he thinks it would be best to receive the dividends as they are declared; the Director has desired him to receive the dividend in case he thinks it will not injure the judgement & remit the same to me, which as soon as I receive, I will carry to the credit of the U.S. This, Sir, is the actual state of this unfortunate affair; if you wish to have official copies of the letters, they shall be sent you, being the only vouchers I can give — but I hope you will no longer keep this sum to the debit of my account, as you will perceive, that all the necessary steps for the recovery of same has been taken. — You complain of the original bills & receipts for payment are not all forwarded, I wish you had particularized the defective ones, & should have known if they had been sent or not, as I am always very particular in forwarding them. Perhaps some of them may have been mislaid by the examination in the Auditor's Office; I cannot otherwise account for the deficiency in them.

of Silver	1540.07
of Gold	246.85
	<u>2,140.55</u>
Dollars.	2,200.24

A Warrant N^o 154 drawn on the Moller and Refiner in your favour for silver bullion of the value of Two thousand nine hundred and eighty Dollars and three cents is returned to you herewith for the purpose of obtaining the signature of the Director. The frequent applications of this kind which have occurred, render it proper for me to request that greater attention may be hereafter observed in this respect. The Warrant after being signed, you will be pleased to return to this Office, in order to be placed on its proper file.

I am Sir,
very respectfully

Mint of the United States

Sir,

I have yours of 4th instant advising that my accounts as Treasurer of the Mint for the ordinary receipts & expenditures commencing on the first April & ending 30th June 1801. had been adjusted and a balance of 25,013. $\frac{25}{100}$ carried to my debit in new account viz:

Balance due the U.S. as stated by me	\$ 19,978. 82
Disbursements bills protested	5,582. 20
Warrant No. 5 in favor of Sam. Christie, which had not the Director's Signature	52. 25
	<u>\$ 25,013. 27</u>

In regard of the bills I refer you to my letter of 22nd Ultimo.

The above mentioned Warrant for 52. $\frac{25}{100}$ is the one to John W. Self for 10. $\frac{53}{100}$ is now returned to you with the Director's Signature; you will please to credit my account for the former one in the next quarter.

Mint of U.S. 30th Oct. 1851

Sir

Having been much disappointed in the im-
portation of Copper the last winter & spring, I have with great
difficulty, obtained ~~one~~ two Cargoes by late Vessels amount-
ing to near 20 Tons. I obtained them from England on a
credit of 4 Months & then to pay Interest — By the late
issue of Bonds to the Treasurer, ^{of the United States} I am entitled to draw from
the Treasury a trifle above Ten thousand Dollars, but shall
want sixteen thousand to discharge the whole Balance due —
Perhaps I could make out with about fourteen thousand, by
which I should prevent the ^{accumulation} ~~renewal~~ of Interest — Will you
be so kind as to issue your warrant to the Treasurer of the U.S.
in favour of the Treasurer of the Mint for 10,000 Dollars at
all events — If you can lend the Mint 4,000, ^{more} I am confi-
dent I can repay it in bonds within eight or ten weeks.
~~that~~ By this means I shall save so much Interest
to the United States & preserve ^{and take advantage of the present state of affairs} our credit — ^{the more prompt you draw the more} the supply
of Copper will keep us employed all winter. The ~~deft~~
sailing of the late Vessels makes it necessary that the ex-
penditure should be made without delay —

I am Sir very respectfully
Yours very Hble Servt

Sir

Your letter of the 5th instant, has been
only received and in reply thereto I have to
advise that not considering myself at liberty
to exceed the funds appropriated by law, I cannot
comply with your request in regard to a loan
- I shall therefore direct a warrant to issue in
favor of the Treasurer of the Mint for ten
thousand dollars, the amount of which will be
remitted to him in advance on the Cashier of the
Bank of the United States.

but owing to their absence from town previous
to the last Circuit Court it was not served.

The writ is now renewed - owing to ~~their~~ ^{their} ~~absence~~
absence, which has taken place in
our Court this delay has produced up the
delay there will be a judgment against
them at the next Circuit Court held at
Annapolis in May. I incline to think
the United States on a bill of this
kind have no preference.

Sir

In answer to your favour of the 5th Inst. it is only necessary to inform you that the Clippings mentioned in the Treasury consist chiefly of spoiled Blanchetts, by mistakes which cannot be avoided, and as we have no Account opened in our books to which this loss could be transferred, but that of Clippings, it is carried to that Account, especially as they are all delivered to the Melted of Copper as Clippings — The loss is occasioned by the Blanchetts being so much heavier than the ~~old ones~~ standard and weight of the bank, which cannot be avoided in so many Tons — ~~There~~ Those we have now in hand, are rather lighter & will of course go to make up that loss — You must have mistaken the Account where the purchase of Copper is charged, as we have never purchased any of the aforesaid Copper, it was from a Jacob Esfeldt of this City — The aforesaid Copper's name is Adam Esfeldt —

P.S. One Act. have not been settled since Jan 7th — This would render it very inconvenient if any mistake should be discovered as the bookkeeper on the leaving the Trust —

I enclose you a copy of Bill of Protest recd. from London this

day. — This bill was purchased by Mr Stewart for me, by
Mr Wood on account of the United States, by my orders & directed
to pay for Copper purchased for the Mint —

I must beg that you will take the proper steps to
secure this money for the United States, as soon as possible —

I should be exceedingly sorry to give Mr Stewart any unnecessary
trouble on this occasion, and would consent to any measure
of compromise that a public Officer could be expected to
make, but further I could not go — Whatever preference the United
States may be entitled to, should not be lost —

Affirmed this Eleventh day of
February, One Thousand ~~and~~ Eight
Hundred. Before me
Richard Peters

Know all men, by these presents, That We George
Chancellor, and George Adams Baker
both of the City of Philadelphia, acknowledge ourselves held and
firmly bound to Elias Boudinot, Director of the Mint of the United
States, in the just and full sum of One Thousand Dollars, to be
paid to the said Elias Boudinot, and his successors, Directors of the
said Mint, or their lawful attorney or assignee, to which payment
will and truly to be made and done. We bind ourselves our
Heirs, Executors & Administrators, jointly, severally and jointly,
by these presents, sealed with our seals. Dated this Eleventh
day of February, in the year of our LORD one thousand Eight
hundred

Whereas, the above bounden George Chancellor is
appointed by the said Elias Boudinot, with the approbation of
The President of the United States, Bookkeeper and Treasurer
Clark in the said Mint. Now the condition of the above
obligation is such, that if the said George Chancellor, shall from
time to time, and at all times, during his service in the said Mint
well and truly perform and fulfill the duties and services of Book
keeper and Treasurer Clark in the said Mint, according to the
rules established, or to be established therein, and shall well and
truly account for all Bullion, Coin or other property of the Mint
that may be entrusted to him, or any ways come to his hands
or possession, and in all things behave himself in a diligent
and faithful manner: Then the above obligation to be void
otherwise to be and remain in full force and virtue.

Philadelphia Aug 2 1791

As soon as I shall have completed the accounts for the past year, & made out transcripts for the Treasury which I expect I shall be able to effect by the latter end of this, or beginning of next month, I shall be under the necessity of resigning the situation I have held in the Mint for the six years past, during which, I flatter myself I have given you Sir, satisfaction inasmuch as I have endeavored to discharge the duties assigned me to the best of my ability. I informed Dr. Rush a few days past of my resignation, adding that I should be ready & willing to come forward at any time, to give whatever explanation might be wanting with respect to his accounts as Treasurer.

I am, Sir, very respectfully,

Sir. It is with pleasure that I have an opportunity of recommending Mr George Ehrenzeller, as able to succeed Mr Thomas in the mint. I have the greatest satisfaction in finding, that the latter has to the fullest extent shown himself worthy of the recommendation I gave of him, when he was appointed; & I have, from an experience of many years, on undoubted grounds of belief that Mr Ehrenzeller will fill the place with equal credit to himself & satisfaction to you, as soon as he shall have acquired a knowledge of the office forms.

His integrity, diligence & capacity, entitle him to this testimony in his favor.

Whereas the sum of 525 ounces of Silver in my Receipts
in the Mint of the United States has been stolen from me by
one of the workmen of this Mint, who have been
convicted & punished therefor. Which quantity of Silver equal
to 600 Dollars 23/100, is now claimed by me of the Director
who agrees to allow the same on being indemnified by me,
I do therefore hereby promise & agree to & with the President
Director of the Mint, that in case the allowance is made
by him, and not admitted by the Treasury of the United States
that then & in that case I will pay to him ~~the~~ the sum

To the President of the United States

The Director of the Mint, Sir, informs the President, that the Law authorizing the drawing money from the Treasury (equal to the sum paid in, in copper coinage) for the purchase of copper for coining, having expired by its own limitation, a bill for prolonging the same of Representatives were two months since for renewing this bill and was sent up to the Senate for concurrence.

This bill not being yet assented to by the Senate leaves the Director without expectation of a supply of copper this Spring (the opportunity by a Vessel that sails next week is lost) and of course that the copper coinage during the Summer will be prevented. — I am, Sir, Sir,

It is therefore in justification of the Officers of the Mint, should such a deficiency happen, that the Director begs the liberty of thus personally acquainting the President with the cause of it.

The Director thinks proper to add, that there have been coined at the Mint since the 1st day of January last upwards of 1500,000 cents equal to 15000 Dollars all which is now in the Treasury.

Very respectfully,
Your obedient servant,
D. M. Smith

Sir
